

Project Initialization and Planning Phase

Date	30 june 2026
Team ID	XXXXXXX
Project Name	Smart Lender
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you identify the real challenges faced by users while applying for loans. A well-defined problem statement enables the team to design a solution that meets customer needs effectively. By understanding the customer's experiences, difficulties, and expectations, the Smart Lender system can provide faster, more accurate, and reliable loan approval predictions using machine learning.

Example (Smart Lender):

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Loan applicant seeking financial support	Get my loan approved quickly and easily	I don't know whether I meet the bank's eligibility criteria	The approval process depends on many financial factors and manual verification	Worried about my loan approval decision
